Recreation Committee Seeks Citizen Participation Tuesday, October 26 at 6 PM

The Recreation Committee will meet on Tuesday, October 26th at 6 p.m. The Committee encourages the public to participate and become active in the Recreation needs of the Town of Kitty Hawk. Public input and participation is important so the committee is able to advise the Town Council on the recreational facilities and programs that are of interest to the citizens of Kitty Hawk. Please come out and be an active supporter.

“Smoke Alarms: A Sound You Can Live With” Change Your Clocks – Change Your Batteries

The month of October is Fire Prevention month which was established in the United States to commemorate the Great Chicago Fire in 1871, when more than 250 people were killed and 100,000 were left homeless when 17,470 structures were destroyed and more than 2,000 acres were burned. The National Fire Protection Agency's theme for National Fire Prevention Week in 2010 is “Smoke Alarms: A Sound You Can Live With.”

Kitty Hawk Fire Chief Lowell Spivey is reminding everyone to make a potentially lifesaving change when they move their clocks back on Sunday, November 7: Change the batteries in your smoke detectors. Only a “working” smoke detector can save lives. By taking the time to change the batteries and by testing them monthly, you may save your life, the lives of your family members, and your property if fire breaks out in your home.

If you require assistance in replacing the batteries in your smoke detector/s, please contact the Kitty Hawk Fire Department, 261-2666.

Fire Prevention Public Outreach

The Kitty Hawk Fire Department kicked off Fire Prevention Week (October 3-9) with an Open House on Saturday, October 2.

Fire department members also participated in Dare County's annual Fire Prevention Public Outreach Program. Four County elementary schools and three preschool/daycare centers in Kitty Hawk were visited this year. Chief Spivey would like to thank Captain J. P. Askew for coordinating the setup and distribution of Dare County's fire safety educational materials, as well as the Kitty Hawk firefighters who participated in the presentations to our schools.

On Saturday, October 23, Kitty Hawk firefighters will participate in Home Depot's Fire Prevention Day from 9 a.m. to 12 p.m. by providing fire safety education to the public.

Flu Vaccine Recommended for Everyone

Its flu shot season in North Carolina. Flu vaccine clinics are underway in physicians' offices, health departments, drug stores, some workplaces, and even the North Carolina State Fair. Unlike last year, the vaccine supply appears to be plentiful and is not being restricted to high risk groups. The [Centers for Disease Control has recommended flu vaccine for everyone over the age of six months](#), except for individuals who have a medical contraindication. This year, a single shot (or nasal spray, if you're healthy and between the ages of 2 and 49) provides protection against H1N1 and two other types of flu that are expected this season.

While flu vaccine is recommended and available for almost everyone this year, there are still certain groups for whom public health officials consider vaccination particularly important. Health care workers (HCWs) constitute one of these groups. For years, public health officials and numerous health care provider professional associations have urged HCWs to take the vaccine, but vaccination rates among HCWs have consistently hovered in the 40% range. Some professional associations and commentators have responded to this low rate by recommending mandatory flu vaccination for HCWs. (See, for example, the [American Academy of Pediatrics' recent position statement](#) on this issue.) Although some of the recommendations—and some mandates—have been around for several years, the 2009 H1N1 pandemic brought increased activity around this issue.

A Cute Tale

“The Naming of the Town of Kitty Hawk”

This letter was submitted to the Town of Kitty Hawk from a Costner Elementary Student in Dallas, North Carolina to explain how the Town of Kitty Hawk was named.

Dear Sir or Madame, Our AG teacher told us to look at a NC map and find city names with animal names. I picked Kitty Hawk. I think it got its name because there once was a kitty named Wilbur. He was just born. Wilbur had a mom, two sisters, and one brother. His mom, two sisters, and brother went outside to the field. All of the sudden Wilbur saw a hawk. He started running after it but his mom said in a kitty voice “stop”. Wilbur did not listen. The hawk turned on Wilbur. He started running the other direction and then suddenly Wilbur stopped running and notices people watching him. They started taking pictures and before anyone could catch the hawk he ate the kitty. He soared through the sky. The group of people ran to the mayor and they told him everything that happened. They also showed him pictures. The mayor said “In memory of the kitty’s life we will name the town Kitty Hawk.” That what I think, was I close to the real truth?

Kitty Hawk Bath House

The Kitty Hawk Bath House will close for the season on Monday October 25, 2010. The portable toilets will also be removed from the Byrd Street beach access until the spring.

Opportunities to Participate

Board of Adjustments Meeting

Monday, October 11, 2010 at 4 p.m.

Town Council Workshop

Monday, October 18, 2010 at 9 a.m.

Recreation Committee Meeting

Tuesday, October 26, 2010 at 6 p.m.

Town Council Meeting

Monday, November 1, 2010 at 6 p.m.

Planning Board Meeting

Thursday, November 4, 2010 at 6 p.m.

(All Meetings to be held at Kitty Hawk Town Hall unless otherwise noted.)
